VI NEW BUSINESS

1. Strategic Plan 2023/2028 - Metrics

Jen Stone, Director, Strategic Initiatives, noted that updates on the development process were provided at all Board meetings in 2022. The steps following approval are implementation and the rollout. They worked with Todd Ormiston, Ruth Lyall, and many others on Indigenizing the plan. They included the voices of Indigenous employees and students in the development of the progress measures. Several working groups of about 30 subject matter experts met once a week from September to mid-November. They worked on how to measure, what data is available already, and at qualitative and quantitative measures. They used a results-based approach. They looked at how much we do, and how well we do it, and at who we are serving. We will need to be able to keep adding and changing the measures as we go. A new department of Strategy, Planning and Transformation will oversee the implementation, including annual reports to Board and supports to the schools. Dylan Thomas created the imagery for the final plan.
